For those interested in ISO 30300, there is a Linkedin Group, to debate at international level a
nything related to
these standards.
Their relations
, events
, new
publications.
In this group
any person can participate for
both
to share news or events, and to initiate
discussions on the implementation
of the standards
or relationships
with other
international norms and standards
.
The
group
language
is English,
but
comments are allowed
in
other languages
when trslation is provided
.
This is a open group in
Linkedin
.
The group is called
[ISO 30300-Management system for records](#)
