

The TC46/SC11 has published a "white paper" for free distribution in the public website of the subcommittee.

The paper  
concisely  
explains  
relationships  
between  
30300  
series of standards  
,  
and other  
records  
management standards  
published  
by ISO  
TC46/SC11  
.

The document sets the general relationships between atandards and is accompanied by an Annex that links requirements in the Operation Section (see Annex A of 30301 ) with each of the sections and subsections of the various standards and technical reports published nowadays  
.
