

The ISO TC46/SC11 decided to establish an information section on its public website on ISO 30300

.

This

section will incorporate presentations and documents from members of SC11 used in their countries as promotion and diffusion of ISO 30300.

There will be presentations, materials, magazine articles and short papers in all languages. All material in this section belongs to each author, which is shared with the international community to build a common discourse beyond national borders.

The folder is in the following address:
